WATER SAFETY

7 young people under 20 have died in accidental drownings in Wales since 2023! Winter is a beautiful season, but it also brings certain risks, especially around water, with flooding and ice being major concerns. It is important that we make our children aware of how to stay safe around open water during the winter:

Stay away from the edge – keep back from slippery banks and avoid walking on ice. Avoid walking or driving through floodwater.

Keep children and Pets close – teach children to stay off the ice and avoid floodwater. Keep dogs on a lead near ice and slippery banks.

If you fall through the ice – keep calm and call for help. Float on your back until you feel calm, then try to climb out. If you cannot climb out, continue to float and keep your head clear of water.

If you see someone in trouble – call 999. Do not enter cold water, ice or floodwater, use a rope, pole, tree branch or clothing tied together to reach them.

Flood Safety updates – Check the local flood risk on the Natural Resources Wales website and sign up for flood warnings.
